

What to Bring on a Pangaea Adventure! Any Mothership, Charter boat or Lodge based tour

Important Note: Avoid Cotton when ever possible

Pangaea Adventures strongly advises following this clothing list closely. We believe in the layering system and attempt to keep the packing light weight, warm, and safe! Cotton does not insulate well when wet! If you find you need to purchase any of these items, remember they are all items you will be thankful you had both on this adventure as well as on your next adventure. Valdez has a sports shop to purchase these items, and the prices are usually comparable to the lower 48 states.

The charter boat has very limited storage space. Please avoid hard or framed suitcases. **A soft duffle bag is best for packing.** Please avoid over packing. You may bring 1 set of cloths for paddling and hiking which should be **non-cotton** and another set for relaxing on board the boat, which may be cotton.
